

**Hydromodification Control & Low Impact Development
Implementation
Charette Materials**

CHARETTE OBJECTIVES

- 1) Provide introduction to the Joint Effort Hydromodification Project
- 2) Develop recommendations for Project Milestones for the Joint Effort Hydromodification Project

When we complete this Charette, we want to have:

- 1) Clear understanding of the Joint Effort
- 2) Shared awareness of the full array of requirements for a successful municipal program for LID and hydromodification control for new and re-development projects
- 3) Agreement on recommended Project Milestones
- 4) Newfound friends and partners for creating successful programs!
